Sydney Melanoma Diagnostic Centre: melanoma.net.au

CV last update in April 2022.

Qualifications

Fellow of the Australasian College of Dermatologists (FACD)

Doctor of Philosophy (PhD)

Postgraduate Program in Evidence-based Healthcare, Federal University of Sao Paulo, Brazil. Areas: epidemiology and diagnosis of scalp melanoma, dermoscopy, confocal microscopy.

Master of Science (MS)

Postgraduate Program in Translational Medicine, Federal University of Sao Paulo, Brazil. Areas: inpatient dermatology, dermatoses of the immunocompromised host, solid organ transplant recipient.

Doctor of Medicine (MD)

Faculty of Medicine, State University of Campinas, Brazil. First class honours.

Specialist training and subspecialty fellowships

Dermatology Specialist Training

Hospital São Paulo, affiliated with the Federal University of Sao Paulo, Brazil.

Inpatient dermatology/complex medical dermatology fellowship

Hospital São Paulo, Hospital do Rim and Instituto de Oncologia Pediátrica, Federal University of Sao Paulo, Brazil.

Onco-Dermatology fellowship

Sydney Melanoma Diagnostic Centre and Melanoma Institute Australia, Australia.
Areas: reflectance confocal microscopy, dermoscopy, total body photography, diagnosis and treatment of melanoma and non-melanoma skin cancers.

Clinical experience

2019 to present: Dermatology consultant and clinical researcher at the **Sydney Melanoma Diagnostic Centre, Royal Prince Alfred Hospital, Sydney, Australia.**

Clinical dermatology, dermoscopy, total body photography, confocal microscopy and dermatologic surgery, aiming at the early diagnosis and treatment of melanoma and non-melanoma skin cancers.

Research in the field of melanoma, non-melanoma skin cancers and technology-aided diagnosis of cutaneous diseases.

2021: Honorary dermatology fellow, General Dermatology Clinic, Department of Dermatology, Royal Prince Alfred Hospital, Sydney, Australia.

Supervised practice at the public general dermatology clinic.

2018-2019: Senior dermatologist (Dermoscopy and mole mapping department), Fleury Diagnostic Centre, Sao Paulo, Brazil.

Total body photography, dermoscopy, supervision of a team of dermatologists.

2018: Hospital Israelita Albert Einstein, Sao Paulo, Brazil (ranked as the best private hospital in Latin America).

Skin checks, dermoscopy and mole mapping (total body photography and sequential dermoscopy imaging).

2014-2019: Dermatology consultant at Hospital Municipal Arthur Ribeiro de Saboya, Sao Paulo, Brazil (public health system, secondary level referral centre).

Onco-dermatology outpatient clinic, inpatient dermatology consultations (adult and paediatric wards) and dermatologic surgery.

2014-2019: Senior dermatology consultant at InDer Dermatologia Integrada, Sao Paulo, Brazil (shared private practice).

Clinical, surgical and procedural (cosmetic) dermatology, adult and paediatric patients. Technical and scientific coordination (2018-2019).

2014-2015: Dermatology consultant at Hospital Dia da Penha, Sao Paulo, Brazil (public health system, secondary level clinic and day hospital).

Clinical and surgical dermatology – outpatient clinic.

2011-2014: Dermatology registrar at Hospital São Paulo, Federal University of Sao Paulo, Sao Paulo, Brazil.

2013-2014: Junior Medical Officer at *Hospital Paulistano*, Sao Paulo, Brazil (private hospital, reference in oncology and palliative care).

Medical assistance to urgent and emergency calls in the hospital wards (110 beds).

2011-2013: Junior Medical Officer at the Emergency Department of *Hospital Alvorada*, Sao Paulo, Brazil (private hospital).

Initial medical assistance to patients in the walk-in emergency department.

2008-2010: Internship at *Hospital das Clínicas* and affiliated teaching hospital facilities, State University of Campinas, Campinas, Brazil.

Hands-on supervised clinical practice in core medical areas (Internal Medicine, Emergency Medicine, Paediatrics, Gynaecology and Obstetrics, Surgery and Trauma, Community Medicine) and shorter rotations in other clinical and surgical specialties.

Teaching experience

2020 to present: Clinical lecturer, Discipline of Dermatology, The University of Sydney, Australia.

In-clinic teaching of medical students and supervision of tutorial sessions.

2018-2019: Clinical lecturer at *Centro Universitário São Camilo*, Sao Paulo, Brazil.

In-clinic teaching of medical students (general dermatology clinic), facilitation of tutorial sessions in dermatology and lectures (dermatology basic curriculum).

2019: Staff specialist at the Department of Dermatology of the Hospital Sao Paulo, Federal University of Sao Paulo, Sao Paulo, Brazil.

Supervision of dermatology registrars (dermatologic surgery).

Professional memberships and registrations

- Australasian College of Dermatologists (Fellow, FACD)
- Australian Health Practitioner Regulation Agency (AHPRA) – Specialist registration in Dermatology
- Melanoma Institute Australia
- Sydney Catalyst Translational Cancer Research Centre
- American Academy of Dermatology (International Fellow)
- Australasian Dermatopathology Society (Associate Member)
- Melanoma World Society
- Brazilian Melanoma Group
- International Dermoscopy Society
- Brazilian Society of Dermatology (Fellow)
- Board of Medicine of the State of Sao Paulo, Brazil

Honours, Grants and Awards

Granted **Permanent Residency in Australia via the Global Talent pathway**. The Global Talent Visa Program is a streamlined visa pathway designed for highly skilled professionals to work and live permanently in Australia. 2021.

2020 Travel and Education Award from the Sydney Catalyst research society. This award aims to encourage training and development of outstanding researchers and clinicians who have the potential to develop highly significant careers in cancer care and research, and meet the overall goals of Sydney Catalyst.

Awarded with a **research grant** from the Brazilian Federal Government, CAPES (Coordination of Improvement of Higher-Level Personnel), to undertake the research activities for the master's degree at the Federal University of Sao Paulo, Sao Paulo, Brazil.

Award for the **best poster presentation**: "DRESS in children and adolescents: report of six cases evaluated by the dermatology inpatient consultation service at a tertiary hospital", presented at the 70th Meeting of the Brazilian Society of Dermatology, Sao Paulo, Brazil.

Grant to attend the 1st Intensive Course for Registrars - Latinaderm Excellence – after a competitive assessment of curriculum and scientific production, which selected the most prominent registrars from Latin America and Spain to attend this immersion course in Dermatology in Buenos Aires, Argentina.

Honourable mention in the "Sebastião Sampaio award" for the oral presentation of "Blue Rubber Bleb Nevus Syndrome: late onset in a patient with cutaneous, central nervous system and gastrointestinal involvement " at the 67th Meeting of the Brazilian Society of Dermatology, Rio de Janeiro, Brazil.

Award "Prof. Dr Silvio dos Santos Carvalho" as the **most prominent student in the activities of the Department of Internal Medicine** during medical school, Graduation Ceremony, Faculty of Medicine, State University of Campinas.

Award "Department of Pharmacology" - as the **most prominent student in the activities of the Department of Pharmacology** during medical school, Graduation Ceremony, Faculty of Medicine, State University of Campinas.

Graduation in Medicine with first class honours - **highest grade (first in class) among 109 medical graduates**, Faculty of Medicine, State University of Campinas.

Second award in Scientific Investigation - Category Sanitary Dermatology: “Doutor Diltor Opromolla” award for the poster presentation “Clinical, histopathological and ultrasonographical study of the polymethyl methacrylate (PMMA) filler in patients with facial lipoatrophy secondary to antiretroviral therapy”, presented at the 13th Annual Meeting of the dermatologists of the state of Sao Paulo, Campinas, Brazil.

"18th Adolfo Lutz award" – **Category Internal Medicine - for the oral presentation** “Clinical, histopathological and ultrasonographical study of the polymethyl methacrylate (PMMA) filler in patients with facial lipoatrophy secondary to antiretroviral therapy”, at the XVII State University of Campinas Medical Academic Meeting – CoMAU, Campinas, Brazil.

Awarded with a **research grant** from the State of Sao Paulo government, via *Fundação de Amparo à Pesquisa do Estado de São Paulo* (FAPESP), to undertake research activities for the “scientific initiation program” at the Neuroimage Laboratory, Department of Neurology and Neurosurgery, State University of Campinas, Campinas, Brazil.

Second languages: fluency in English, certified by:

1. **Cambridge English Language Assessment – IELTS – Overall Band Score: 8.5** (very good user – Has fully operational command of the language with only occasional unsystematic inaccuracies and inappropriacies. Misunderstandings may occur in unfamiliar situations. Handles complex detailed argumentation well) – **June 2019**.
Reading: 9.0 / Listening: 9.0 / Speaking: 8.0 / Writing: 7.0
2. **Cambridge English Language Assessment – IELTS – Overall Band Score: 8.0** (very good user – Has fully operational command of the language with only occasional unsystematic inaccuracies and inappropriacies. Misunderstandings may occur in unfamiliar situations. Handles complex detailed argumentation well) – **October 2017**.
Reading: 9.0 / Listening 8.5 / Speaking: 7.5 / Writing: 6.5
3. **Cambridge English Language Assessment – IELTS – Overall Band Score: 8.0** (very good user – Has fully operational command of the language with only occasional unsystematic inaccuracies and inappropriacies. Misunderstandings may occur in unfamiliar situations. Handles complex detailed argumentation well) – **November 2016**.
Reading: 9.0 / Listening: 8.5 / Speaking: 7.0 / Writing: 7.0
4. **University of Cambridge– First Certificate in English (FCE), ESOL Examinations – approved with maximum score - A** (reading, writing, use of English, listening and speaking rated as **exceptional**) – **December 2003**;

First language: Brazilian Portuguese.

Invited speaker

Presentation: **The fundamental problem of lentigo maligna spectrum (didactic cases)**. Confocal Microscopy Workshop, Australasian Melanoma Conference, 2021.

Presentation: **Tiny melanomas**. Melanoma Institute Australia Research Retreat, 2021.

Presentation: **The rapid rise in cutaneous melanoma diagnoses**. Journal club, multidisciplinary meeting of the Melanoma Institute Australia, 2021.

Presentation: **Dermoscopy of scalp melanocytic lesions**. Continuing professional development program of the Brazilian Society of Dermatology. Webinar, 2020.

Presentation: **Dermoscopy terminology and histopathological correlation**. Basic dermoscopy course for Dermatology registrars of the Federal University of Sao Paulo. Sao Paulo, Brazil, 2019.

Discussion forum: **Naevi and melanoma of the scalp**. Pigmented lesions module of the post-graduation (*lato sensu*) course in Onco-Dermatology of the Hospital Sírio-Libanês for dermatologists, pathologists, surgeons and oncologists. Sao Paulo, Brazil, 2019.

Presentation: **Scalp melanomas: how can dermatologists detect them early?** Presented at the weekly clinical meeting at the Department of Dermatology of the Federal University of Sao Paulo. Sao Paulo, Brazil, 2018.

Presentation: **Dermoscopy of scalp melanomas**. 30th Brazilian Meeting on Dermatologic Surgery Society. Belo Horizonte, Brazil, 2018.

Presentation: **Emerging technologies for mole mapping and early diagnosis of melanoma**. 73rd Meeting of the Brazilian Society of Dermatology. Curitiba, Brazil, 2018.

Presentation: **Fundamentals of Dermatologic Surgery**. Lecture for medical students attending the “Dermatology academic league”, an extracurricular activity organized by medical students at Centro Universitário São Camilo. Sao Paulo, Brazil, 2018.

Presentation: **Scalp melanoma: the invisible killer may be hidden by hair**. Lecture in an advanced Trichology Course in Sao Paulo, Brazil, 2018.

Oral presentations (research productions)

Ongoing research projects

Jan 2022 to present: supervisor – NEW MEL study (single-centre Australian study): this study aims to analyse if clinical and dermoscopic features could accurately predict malignancy in melanocytic lesions presenting clinically as a new lesion. Principal investigator: Serene Chan (medical student). Supervision: Dr Amanda Regio Pereira, Prof. Pascale Guitera.

2021 to present: investigator – MEL-SELF clinical trial (multicentric Australian study): this study aims to assess if a method of follow-up care called patient-led surveillance, offered in addition to usual follow-up (clinician-led surveillance) leads to earlier detection of skin cancer, improves psychological outcomes, and lowers costs. Chief investigator: A/Prof. Katy Bell.

2020 to present: investigator – SAMD trial (multicentric international study): assessment of experimental artificial intelligence (AI) algorithms for the diagnosis of skin tumours against human performance. Principal investigators: Prof. Scott Menzies (Australia), A/Prof. Pascale Guitera (Australia), Dr Serigne Lo (Australia), Prof. Harald Kittler (Austria) and Dr Philipp Tschandl (Austria).

2019 to present: investigator – RADICAL trial (multicentric international trial): randomised controlled multicentric trial of imiquimod versus radiotherapy for lentigo maligna (LM) when staged surgical excision with 5mm margins is not possible, is refused, or fails.

2020 to present: collaboration - international multicentric research: Retrospective multicentric cohort study on the significance of the grey microcircles in dermatoscopy of malignant and benign skin tumours. Principal investigator: Dr Pawel Pietkiewicz (Poland).
